### Finding Sets of 3's, 4's, 5's and 6's

Recently as an assignment, you looked around for things that came in 2's, or pairs. Now search around for things (or pictures in magazines) that always come in sets of 3, 4, 5, 6.

Make a list of pictures and/or words.

One example for each set is enough, but it may be fun to invite family and friends to find more! Think of animals, tools, machines, food, and more!

<p><u>A Set of 3</u></p>	<p><u>A Set of 4</u></p>
<p><u>A Set of 5</u></p>	<p><u>A Set of 6</u></p>
